

Mechanical pizza moulder

Pizza moulder with discs realized to resolve problems for formation round pizza without changing dough peculiarity. The pizza moulder allows to economize times and above all don't need specialized staff. Thickness and compression time setting. Thickness between discs adjustable by mean of a hand-wheel the compression time and discs temperature adjustable by mean of timer and thermostat. The metal structure is covered with stainless steel panels, the discs and protection hands safety device in stainless steel. The machinery operate by mean of a three-phase gear motor and camshaft transmission.

OPERATION

- Levelling dough by compression between heated discs
- Compression time setting
- Adjustable height between discs
- Independent heating control of discs

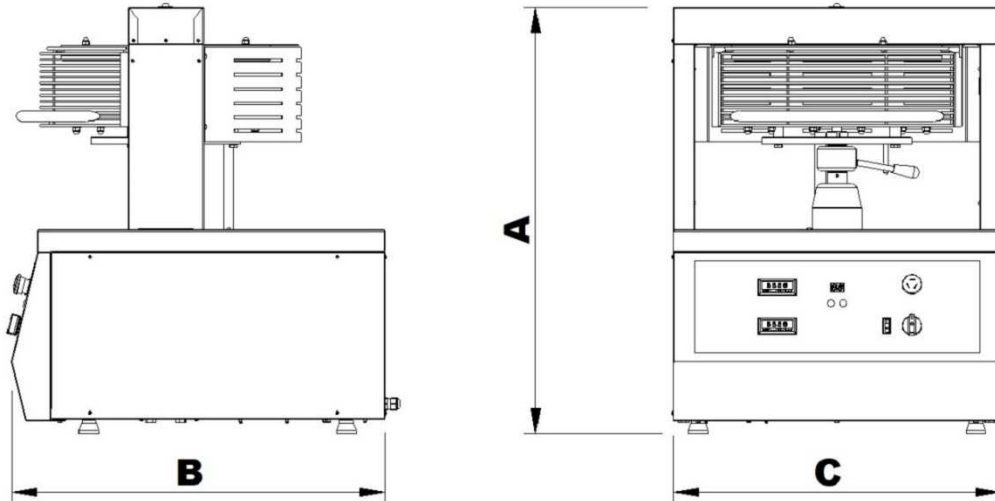

CONSTRUCTION

- Metal structure covered with stainless steel panels
- Chromed iron discs suitable for food with heating elements
- Thickness regulator
- Movable safety device to protect hands
- Control board panel in front position.
- Camshaft transmission
- Three-phase bath oil gear motor
- Rotating transmission parts assembled on self-lubricate ball bearings
- Electrical system with low tension circuits

STANDARD EQUIPMENT

- Upper disc with edge
- Timer
- Double light

iPs 33
(Discs diameter 330 mm)

EXTERNAL DIMENSIONS

External height (A)	821 mm
External depth (B)	660 mm
External width (C)	470 mm
Weight	121 kg

SHIPPING INFORMATION

Packed machinery:	
Max height (A)	1030 mm
Max depth (B)	880 mm
Max width (C)	750 mm
Weight	140 kg

FEEDING AND POWER

Standard feeding
A.C. V400 3N 50/60Hz
Power 4,75kW

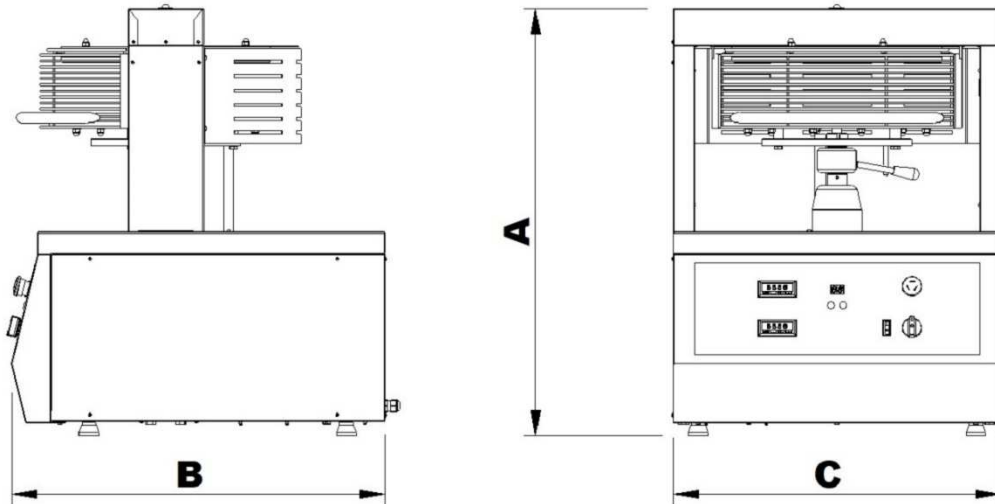

Feeding on request
A.C. V230 3 50/60Hz

MACHINE CAPACITY

Discs diameter	330 mm
Dough weight	250/270 gr

NOTE: MORETTI FORNI S.P.A. reserves the right to modify the characteristics of the products illustrated in this publication without prior notice

iPs 45
(Discs diameter 450 mm)

EXTERNAL DIMENSIONS

External height (A)	860 mm
External depth (B)	670 mm
External width (C)	550 mm
Weight	163 kg

SHIPPING INFORMATION

Packed machinery:		
Max height (A)	1030 mm	
Max depth (B)	880 mm	
Max width (C)	750 mm	
Weight	182 kg	

FEEDING AND POWER

Standard feeding
A.C. V400 3N 50/60Hz
Power 6,1kW
Feeding on request
A.C. V230 3 50/60Hz

MACHINE CAPACITY

Discs diameter	450 mm
Dough weight	550/600 gr

NOTE: MORETTI FORNI S.P.A. reserves the right to modify the characteristics of the products illustrated in this publication without prior notice
