

ClearBev Microfiltration Systems | CBE

CBE-QD
with four CBE-3200
cartridges

CBE-TR
with three CBE-3200
cartridges

CBE-TW
with two CBE-3200
cartridges

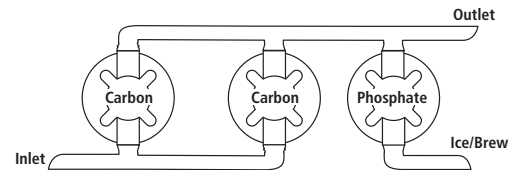

Experience a new freedom in foodservice water treatment with ClearBev, an economical solution to filtration does not compromise on quality or performance. The CBE series of systems is interchangeable with the legacy Everpure® products while meeting or exceeding their performance standards.

The CBE systems fit within any operation. Each system includes a mono-block plastic header that offers fewer leak points as well as a lower pressure drop across the system. Each header features a high-quality stainless steel bracket for added durability and simple installation.

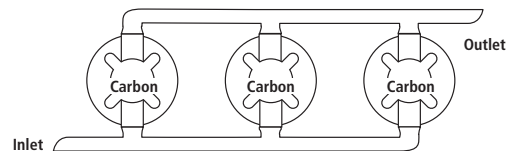

Systems are available in eight different configurations and can be assembled with an assortment of cartridges to address any specific set of filtration needs.

FEATURES

- Cartridges available for taste and odor, sediment, and scale reduction.
- Mono-block plastic header offers fewer leak points and a lower pressure drop.
- Includes high-quality stainless steel wall mounting bracket for easy installation.
- Equipped with water pressure gauge.
- Optional prefilter available to reduce dirt-loading and prolong the life of the cartridge.
